- Lanterman-Petris-Short (LPS) Conservatorship (WIC §350-5352) & Murphy Conservatorship (WIC §5008(h)(1)(B)
- Worker Compensation Benefit Claims (Emotional Injury)
- Social Security Denial Claims

Professional Forensic Services

- Family Mediation services, assisting families in the reunification process and in the resolution of disputes
- Jury Consultation
- Witness Preparation
- Expert Witness Consultation/Services
- Expert Witness Cross Examination Consultations

Forensic Prison Experience

Perform Offenders with a Mental Health Disorder (Mentally Disordered Offender) Evaluations through the Board of Parole Hearings and the Department of Mental Health. Competency to consent to parole conditions are evaluated. California Out of State Correctional Facility (COCF) Program Evaluations were previously conducted. The following prisons in which these evaluations have been conducted include:

- Atascadero State Hospital
- California Department of State Hospital (DSH) – Mental Competency Assessments and Training
- California State Prison, Corcoran (COR)
- California Substance Abuse Treatment Facility and State Prison, Corcoran (SATF)
- California Health Care Facility (CHCF)
- California State Prison, Solano (SOL)
- Central California Women's Facility (CCWF)
- San Quentin State Prison (SQ)
- Kern Valley State Prison (KVSP)
- North Kern State Prison (NKSP)
- California Medical Facility (CMF)
- Mule Creek State Prison (MCSP)
- California State Prison Sacramento (New Folsom/SAC)
- Salinas Valley State Prison (SVSP)
- Pelican Bay State Prison (PB)
- Folsom State Prison (FSP)
- Valley State Prison (VSP)
- Deuel Vocational Institute (DVI)
- California Training Facility (Soledad Prison) (CTFS)
- Porterville Developmental Center (PDC) (Mental Competency Assessments for Developmentally Disabled Individuals)

Forensic Programs

Mental Competency Assessment & Training (MCAT), Community-Based Program for Juveniles and Adults:
Developed in 2007 to provide mental competency assessment and training services for juveniles and adults who are developmentally delayed or have mental health issues and are unable to adequately participate in the judicial process because they are either unable to understand the legal proceedings presented to them or they are unable to assist counsel in their own defense in a rational manner. Mental competency training is given based on each individual's developmental level, assessment results and nature of the case. Training is multidimensional and includes mock trials and visual and auditory aids. This program has been utilized by California Department of State Hospital (DSH), counties, courts, and regional centers within California.

Clinical Evaluations/Testing:
Extensive knowledge and experience utilizing psychological and forensic instruments including personality tests, cognitive tests, and neuropsychological instruments. Assessment and testing provided for individuals with ADHD, Autism, Depression, Anxiety, Personality Disorders and other Mental Health and Childhood Disorders. Pre-surgery evaluations performed (i.e., Gastrointestinal Surgery & Spinal Stimulation Surgery). Evaluation of infants, children, and adults. Thorough, detailed reports are provided.

Neuropsychological Evaluations/ Cognitive and Memory Testing:
Extensive knowledge and experience conducting a wide range of neuropsychological assessments using diverse instruments, including the Neuropsychological Assessment Battery (NAB) – encompassing Screening, Attention, Executive, Language, Memory, and Spatial Modules; Neuropsychological Assessment (NEPSY-II); Boston Diagnostic Aphasia, Boston Naming, Dementia Rating Scale, WAIS, WMS, Bender Visual-Motor Gestalt Test, Trails Making Test A & B, Hand Grip Strength, Finger Tapping Purdue Pegboard, Test of Everyday Attention (TEA), TEA-Children's Edition (TEA-CH), Test of Variables of Attention (TOVA), Connors' Continuous Performance Test, and Comprehensive Test of Nonverbal Intelligence (C-TONI). Assessments target a range of conditions including traumatic brain injury (TBI) (focal & diffuse), Alzheimer's disease, vascular dementia, substance/medication-induced cognitive impairments (e.g., Korsakoff syndrome), and Parkinson's disease. Specialize in cerebral functioning impacts, encompassing cognitive, memory, emotional, and behavioral aspects, including assessing individuals with mild to severe brain trauma, resulting from incidents such as falls and automobile accidents. Evaluations are also conducted for autism spectrum disorders and associated neurodevelopmental challenges. Additionally, secondary mental health issues arising from neurological impairment, including depression, anxiety, personality disorders, and other mental health and childhood disorders are assessed. As a Certified Neurocognitive Technician, specialized neurocognitive and memory enhancement training, such as Cogmed, for individuals with attentional and neurocognitive deficits are provided."

Therapy

Individual
Psychotherapy is provided for depression, anxiety, and life adjustment skills for children and adults. Provide services to developmentally disabled individuals, including therapy, evaluations, and consultative services. Parent training and behavioral modification interventions are implemented. Through the Victim Witness Programs of Yuba and Sutter County, specialized therapeutic interventions are performed with victims of crime to help decrease feelings of helplessness and anxiety. Behavioral and inpatient psychiatric consultation services are rendered.

Groups/Family
Provide group and family therapy for those requiring treatment to assist with social connection, setting boundaries, and alleviating negative behaviors. Family reunification therapy is performed.

Couples
Provide couples' therapy. Couples are seen to assist in creating intimacy and decreasing negative interactions. Incorporate the use of the Couple's Communication Enrichment Program (CCEP), including the Couple's Communication Evaluation Scale (CCES), to build intimate communication skills. Therapy is designed to teach couples how to communicate in positive and fulfilling ways and how to resolve future conflicts effectively.

Clinical Program

Founder and director of the **Couple's Communication Enrichment Program (CCEP)**. The program utilizes an assessment portion and a therapeutic portion. The assessment section includes the Couple's Communication Evaluation Scale (CCES) which is a comprehensive online test developed to measure intimate couples' communication strengths and weaknesses. The therapeutic aspect utilizes the CCES results to work with couples and their specific communication skills. The program includes workbooks, manuals, exercises, and guides.

- Conferences for professionals (both live and online courses) are offered to gain knowledge about the CCEP for use with clients.
- Workshops for couples are provided to enhance communication skills within their relationship.

Clinical Supervision

- Supervise Psychological Assistants (third-year practicum students, pre-doctoral interns, and post-doctoral interns) in providing evaluations and therapeutic services. Includes collaboration with post-graduate universities.
- California Psychology Internship Council (CAPIC) Approved Internship Site- Former
- Supervised MFT Interns in providing therapeutic services for individuals, couples, and families.

Clinical Practice/William Falzett, Ph.D. **August 1999 - January 2002**
Psychological Clinician

Forensic Experience

Completed Competency to Stand Trial Evaluations examining individuals' abilities to consult with counsel and understand the court proceedings. Other court appointed evaluations included assessing alternative treatment options and appropriateness for diversion programs. Family mediation services were performed. Developed working relationship with CPS of Yuba County and the probation department of Sutter County. Involved with law enforcement to help reduce recidivism in theft-related crimes. Developed and facilitated groups (e.g., Parenting, Anger Management, Sexual Assault).

Clinical Experience

Individual, group and family therapy were performed as needed. Provided services for Victim Witness program of Yuba and Sutter County. Contracted with Alta California Regional Center to provide services to developmentally disabled individuals. Individual psychological assessments were completed. Established relationships with skilled nursing facilities in Yuba and Sutter County including providing in-services and grief counseling. Parent training and behavioral modification interventions were implemented.

Sacramento County Department of Health & Human Assistance **July 1997 - June 1999**
Mental Health/Substance Abuse Counselor

Assessed individuals for related mental health and substance abuse issues. Supported clients through individual and group counseling. Brief therapy and specialized treatment modalities (i.e., EMDR) were used to help clients with the healing process. Established a training program for professionals to enhance their interviewing skills to better identify at-risk clients and deescalate crisis situations.

Valley Psychological Center **July 1997 - June 1999**
Psychological Assistant

Administered full battery psychological and neuropsychological tests to children and adults. Assessed cerebral cognitive and memory functioning as well as personality traits. Written evaluations were completed and differential diagnoses given. Forensic evaluations were performed for state disability.
